

Promethean

Promethean ActivPanels are interactive displays designed to enhance classroom instruction by providing a dynamic and engaging teaching experience. Each version of the ActivPanel includes essential connectivity options, such as HDMI, VGA, and USB Touch Ports, making it easy to connect various devices. Some panels have *Screen Share* capabilities, allowing teachers and students to cast their screens from compatible devices wirelessly. This feature supports real-time collaboration, making displaying student work, sharing presentations, and enhancing interactive learning experiences easier.
